

# The Right To Choose

.....

We believe people should have the right to choose the best care setting for themselves and their loved ones. That's why Radius Hawthorne offers both mixed-gender and women-only options for people with advanced dementia.

## Why this matters

### Comfort & Familiarity

Many older women have only ever lived with men who are either relatives or family members. For some, a woman-only wing will feel more natural, safe, and reassuring.

### Safety & Well-being

Research shows women in mixed dementia units are more vulnerable. A woman-only setting can reduce distress, anxiety and enhance dignity.

### A Choice for Families

A woman-only offering isn't about exclusion. We employ male staff in both wings and also allow male visitors. It's about the right to choose a living situation and environment that feels most natural and comfortable.

## Families deserve the right to choose

### Brunner Wing

Woman-only for those who prefer it.

### Victoria Wing

Mixed-gender for those comfortable in that setting.

.....

**This decision is about honoring women, keeping them safe, and respecting their right to live in a way that feels most comfortable.**
