

Mental Health

The majority of our spaces are designated for longer term care, with a few shorter term spaces for assessment. We accept referrals only from the Whanganui District Health Board.

Our staff

We pride ourselves on having a very well trained team, who care for you as a person as much as for your medical needs. Because we value the wisdom and experience of older people, the care we give is respectful, with a focus on the little things that make a difference. Our residents and staff are enjoying this new environment, but as they say, it's our care that makes the difference!

Taking care of the lives in our hands

Broadview is part of the Bupa group of rest homes and hospitals. Our national support network helps ensure the best possible care. We also offer retirement villages and personal medical alarms. We are part of the global Bupa group, based in the UK. Because Bupa is a private company with no shareholders, we can invest what we earn to make improvements that help us provide better care.

Come and see for yourself

We would love to have the opportunity to talk to you about what we can offer. Please don't hesitate to visit our Care Home any time during business hours, or contact our Care Home Manager Delwyn Gedye on **(06) 344 6915** or **027 571 9761**.

BROADVIEW REST HOME AND HOSPITAL

A CARE HOME THAT FEELS LIKE YOUR HOME

Dementia Care and
Mental Health Recovery

Taking care of the lives in our hands

At **Broadview**, we are proud to be able to offer a full range of care – from rest home and hospital, through all stages of dementia care, as well as residential care for mental health recovery. We also offer respite and day care.

The best possible life

Our goal and commitment to you is to help you live the best life possible, supported physically, emotionally and socially and to be as independent as possible.

The quality of the care we provide to you is very important to us (and you can rest assured that it is excellent).

We want everyone to feel that Broadview is their home, and our focus is on making sure that you enjoy each and every day. We make sure that you choose how you spend your days, and we go the extra mile to make sure that our care has you as an individual at the centre of it.

At Broadview, understanding what each resident and their family needs is paramount, because that's the individualised care we want to provide. We know this means different things to different people, so we take care to involve family, and make decisions together.

We like to understand each person's individual likes and dislikes, so that we can build the care we give and the activities we provide around your preferences. After all, this is your home; the place you should feel comfortable in.

Dementia Care

When a family accepts a place in our dementia unit for a family member, our journey together begins. We work to gain an understanding of the unique person who is joining our family of residents. Understanding the person they were, the person they have become, their likes and their dislikes, and their routines helps us provide an environment that will effectively support each person, all day long.

Our small dementia unit, caring for 15 people, helps us keep the care personalised. The ten specialised hospital beds provide the only secure dementia service of this type in Wanganui.

“Our goal and commitment to you is to help you live the best life possible.”
